B. Re-enrollment After Completing Military Service

★Example: A student who has completed military service on April 30, 2020 may return to school either in August 2020 or February 2021. If he attempts to return to school in August 2021, he cannot re-enroll because more than one year has passed since the date of discharge.

However, in the case that returning to school by February 2021 is not possible, an application form requesting general leave of absence (with a copy of the certificate of military discharge) must be submitted by February 2021.

- Required Documents: a copy of the certificate of military discharge or certificate of military service (with the date of discharge)

C. Maternity Leave

- In order to apply for maternity leave, students should submit a medical certificate confirming pregnancy (issued within the last 45 days).
- Students may take a leave of absence for up to one year for each childbirth, and the term of leave of absence is excluded from the thesis submission period.

D. Parental Leave

- In order to apply for parental leave, students should submit a copy of the family relationship certificate or resident registration record.
- Students may take a leave of absence for up to one year for each child under the age of 8, and the leave of absence is excluded from the thesis submission period.

E. General Leave

- Students may take a leave of absence for six months or one year at a time and the term may be extended continuously. Master's and doctoral (including master's-doctorate integrated) students may take a leave of absence for up to two years and three years, respectively.
- For students who want to extend the term of leave of absence after the application deadline, they must re-apply.
- Students must apply to re-enroll for the semester when the thesis examination takes place.
- Those who have completed coursework do not need to take a leave of absence except for maternity, parental, military, and business start-up leaves, the term of which is excluded from the thesis submission period.

- 3) Withdrawal Application: Students in the integrated master's-doctorate program who wish to

withdraw from the integrated program and enter a master's program instead should apply for withdrawal.

- Candidates for program completion are decided at the end of the semester of application after grades have been finalized.

★Example: A student who withdraws from the integrated master's-doctorate program on August 3, 2020 does not complete the master's program on August 25, 2020. Should the student apply for withdrawal in the Second semester of 2020 and meet completion requirements for the master's program, he/she shall complete the program in the Second semester of 2020 (February 25, 2021).

- 4) **Withdrawal from the integrated master's-doctorate program is not available after program completion.**
